

THE EVERYTHING PROJECT

This Holiday Season d ETP urgently needs your support as we try to bring Life and the joy of the Season to so many in Congo-Rwanda region who have been through so much ungodly strife. I am trying to organize a holiday fundraiser. Preferably an art gallery or space where we could display and sell art with music and refreshments. Please view our page and give what you can. We also need volunteers and the spreading of awareness as we try to gain initial contributors. So if you have not to give, give us the thumbs up and tell a friend. Merry Christmas. Love, Michael Shaughnessey.

Congo-Rwanda Region

"28 March 2014 – The Security Council today extended for one year the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo ([MONUSCO](#)) – along with its Intervention Brigade – noting the need for the Mission to strengthen its support so the Congolese Government can address security challenges in line with the aims of a regional peace and security accord.

Unanimously adopting a wide-ranging resolution, the Council renewed the mandate of both MONUSCO and its Intervention Brigade within the peacekeeping mission's authorized troop ceiling of 19,815 military personnel, 760 military observers and staff officers, 391 police personnel, and 1,050 personnel of formed police units, until 31 March 2015.

The Council decided that future reconfigurations of MONUSCO and its mandate should be determined on the basis of the evolution of the situation on the ground and, in the context of implementation by the Government of DRC and all other signatories of the region-wide 2013 Peace, Security and Cooperation Framework." ~**Samantha Power**

Lac Kivu

As our national debt reaches a great depression level of 17.6 trillion dollars U.S. Lac Kivu and throughout that part of Africa there is 77 Trillion U.S. worth of coltane (tantalite) and so many more rare earths we still don't have technologies for them yet. Africa will lead the way in brighter future. The people suffer abject poverty and such ungodly strife but with so little they will begin an economy and collection of communities that have so much. Where we have gotten it wrong in post-industrial world d ETP will get it right.

Refugees and Those of Refuge Status

The Everything Project will assist and communicate with so many strained humanitarian efforts. The Organizations, Leaders, Elders, People, Doctors and Protectors, the Peace Corps, and all the helping hands of Mangu. Where there is peace we will make more peace and prosperity. Housing, farms, infrastructure and skools. Once we can meet emergency needs and life sustaining cycles the Everything Project will bring the import of automobiles and petroleum infrastructure. And further programs such as those that have been proposed along with all the trading advantages for the peoples.

ETP Skool System

School Paradigm

Pre-k 3 to 5 years old

KinderCare 5 to 6

1

6 to 7

2

7 to 8

3

8 to 9

4

9 to 10

5

10 to 11

6 the testing year 11 to 12 (and all ages)

7 1st 12-13

Secondary primer

8 2nd 13-14

Secondary primer

Freshman

Sophomore

Junior

Senior and University

The age of the student might not always match up, especially at first, but the testing year is a good place to foster and place older students as they “catch up” academically. The school could run on a trimester system of 10 weeks on and 7 weeks off and 1 week a year for festival.

Programs

- Skool System
- Big Houses, Trailers, and Homes
- Farms and Green Houses
- Water/Utility Centers and Outhouses
- Electric and Fiber Optic and Infrastructure
- Gari's and Parts
- Petroli use and eventual Service
- Future Programs can include telecommunications, radio stations, amusement park, coltan "tantalite" trade, film production, restaurant and tourism. And more, so much more.

Network and Community Support

Of the 1 million declared residents of Goma 700,000 or more are of at least “refugee” status the camps can only hold so much and the towns of Goma and Gisenyi are structured for 300,000 souls at this time. The time for the programs of d ETP in co-ordination with Mangu’s pre-existing Hands is NOW. This effort could create a butterfly effect across the Continent. One unstated goal of d ETP is to end child soldiering. Equatorial Africa can begin to lead the way in resourcefulness and education. Systemic co-ordination can lead to branching projects from Kivu to South Africa, CAR to Nigeria. Once we become involved in automobiles and oil we could foreseeably have an effect to help clean up nigeria’s oil industry and ravaged delta among many other symbiotic partnerships. Once the ngo and llc of d ETP becomes fruitive we can supplement and seed programs of others in tandem.

Life Bridge & Infrastructure

A Life Bridge to Idjwi opens up the future and the opportunity for prosperous sharing and endeavor. The introduction of electrical and fiber optic infrastructure will allow for many improvements including better refrigeration and communications enabling the effective networking of healthcare, education, and countless other boons.

A Future of Prosperity?

Over this last year The Everything Project has been in contact with thousands of individuals and organizations. As we come in contact with so many groups mounting efforts and action for Lac Kivu and the Great Lakes Region one thing is certain to me. It is a NEED. And to varying and lessening degree will be met, often inadequately. One of the major focuses of d ETP is to help create a holistic network from the systemic patchwork of organizations already in Lake Kivu, with our overall focus being to see a prosperous future with harmonious and sustaining infrastructure. This alone could have a butterfly effect for all of the Great Lakes Region Africa and beyond.

As advances in food and medical sciences exponentiate people will live for hundreds of years, then thousands, and possibly forever. As we embark on this awesome cusp of human evolutionary history the conditions akin to the industrial revolution persist across Africa and the “third world”, yet the Gifts of God bountifully rest with the peoples of Africa.
YOU MUST PASS THIS ALONG TO SOMEONE WHO WILL HELP US.
